Profile Summary

Fresh graduate Frontend Developer highly motivated and detail-oriented offering passion for creating intuitive, responsive, and visually appealing web applications. Proven track record of obtaining solid foundation in HTML, CSS, JavaScript, and modern frontend frameworks with strong understanding of web development principles and best practices. Proficient in designing projects, collaborating on building user-friendly interfaces, enhancing website performance, and ensuring cross-browser compatibility.

Eager to apply and develop new skills with a company that invests in young professionals who are committed to continuous learning and staying updated with the latest web development trends.

Work Experience

Frontend Developer | Freelance

May, 2023 – Present

- Collaborating with different design and development teams to create user-friendly web interfaces, and participated several projects for Sakan.
- Translating clients' design concepts into responsive and interactive web applications using HTML, CSS, and JavaScript.
- Writing clean and efficient code following best practices and coding standards.
- Implementing and maintaining web accessibility standards to ensure inclusivity.
- Testing and debugging web applications, identifying and resolving issues promptly.
- Using version control systems to manage codebase and collaborate effectively.
- Staying updated with the latest web development trends, tools, and best practices.

Call Center Representative

Mar, 2021 – Mar, 2023

Extensya

- Answered incoming calls promptly and while demonstrating excellent customer service skills.
- Listened and asked probing questions to determine the reason for the call and then handle the call accordingly.
- Obtained and entered accurate demographic information.
- Coordinated with other functional areas as necessary. Referred unresolved escalated issues as designated by the departments for further investigation.

Frontend Developer | Android Programmer

Jan, 2021 – Mar, 2021

HTU

- Collaborated with the development team to gather project requirements and specifications.
- Assisted in the design, development, and maintenance of server-side applications using JavaScript.
- Contributed to code reviews and actively participate in knowledge sharing.
- Received guidance and support from senior team members to resolve technical issues.
- Implemented robust frontend services to power web applications, ensuring high performance, security, quality, and scalability.
